NOS Rehab - Siphon to LCIS Junction Structure

(C443)

Current Phase	Scope of Work
Construction	<p>This project will rehabilitate the North Outfall Sewer (NOS) from upstream of the Centinela Siphon to North Outfall Treatment Facility (NOTF), which is a 10'-6" semi-elliptical concrete sewer; and from NOTF to the La Cienega Interceptor Sewer (LCIS) Junction Structure, which is 7'-9". The rehabilitation work consists of constructing a corrosive-resistant plastic liner with 6" of annulus grout/concrete on the interior of the NOS. A diversion structure will be built to bypass flow coming from LCSFVRS to ECIS at La Cienega and Jefferson Blvd to facilitate a section of the rehab work. The 72" triple-barrel Centinela Siphon will also be lined with a cured-in-place pipe to provide corrosive resistance.</p>
Construction Information	
Expected Duration: from 5/4/2007 to 12/31/2010 Construction Cost: \$61,261,530 Contractor: Colich & Sons / J.R. Pipeline JV	
Program Information	
Program: Wastewater Collection System Settlement Agreement - 60 Miles Project Mgr: Sean Zahedi PM Phone: (213) 847-0402 Lead Division: WW Conveyance Engineering Work Order: SZC11307 (Active)	
Council District(s)	Project Status
11 - Bill Rosendahl	Field construction is 100% complete. Jefferson sewer access pit in front of 6000 W. Jefferson Blvd has been backfilled and the street has been restored.
Neighborhood Council(s)	
West Adams NC	
Geographic Information	
Thomas Guide: 672 J1,H1-H6 Planning Area: Varies Address: N/A
